DETAILED ACTION

Response to Amendment

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Allowable Subject Matter

Claims 1-16 allowed.

The following is an examiner's statement of reasons for allowance: The present invention is directed towards . Each independent claim identifies the uniquely distinct features of storing inquiry data to facilitate entry of shared authentication data for initialization; retrieving the stored inquiry data for presentation based on the received entity identification; receiving the shared authentication data in response to the presented inquiry data and determining whether to initialize operation based on the comparison of the received and stored authentication data. The closest prior art (U.S. Patent No. 6,564,323) granted to Takahashi et al, discloses a conventional personal information controlling apparatus fails to anticipate the above underlined limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
